

Theora[™] Sense

Always know how your loved one is doing with situational awareness for the home

Theora Sense[™] is the in-home, affordable remote monitoring system that supports independent living for loved ones and peace of mind for their caregivers. The unobtrusive sensor-driven, wall-mounted system provides quality of life information to caregivers, with no user intervention required by loved ones. Using the existing wireless network, the sensor system relays real-time activity and environmental information to the caregiver via the familiar Theora Link[™] software app, either via smartphone and other secure internet-enabled devices, providing real-time status information.

Theora Sense and all Theora Care[™] solutions support caregivers of loved ones with the following conditions:

- Alzheimer's and dementia
- Autism
- Parkinson's
- Down Syndrome
- Stroke
- Post Traumatic Stress Disorder (PTSD)
- Any other reasons caregivers may have for wanting help by keeping an extra set of eyes on their loved ones

- ✔ **Promotes peace of mind for caregivers** – Enhanced piece of mind for care partners, knowing they can proactively remotely monitor their loved ones for potential activity or environmental issues requiring intervention
- ✔ **Loved ones live at home, independently, longer** – The sensor system promotes an independent lifestyle for loved ones, at home, enabling them enjoy their usual activities
- ✔ **Multiple environmental sensors enhance safety** – Sensors monitor activity, light, temperature and humidity, door status, and care recipient's location
- ✔ **Scalable levels of service** – Start with the activity data you want to monitor today, and add additional functionality if or when needed through a simple app upgrade
- ✔ **Real-time text notifications to caregivers** – Customizable alert notifications sent to caregiver's smartphone, and accessible through other secure internet-enabled devices
- ✔ **Discrete sensors** – Theora Home is unobtrusive, using small, wall-mounted sensors that are easy to install, using the existing wireless network
- ✔ **Location accuracy** – Locate loved ones to 10 centimeters
- ✔ **Superior customer support** – Provided by Theora Care's friendly and experienced personnel, who are caregiver's, too

Theora Sense

When They Can't Tell You, Theora Care™ Solutions Can

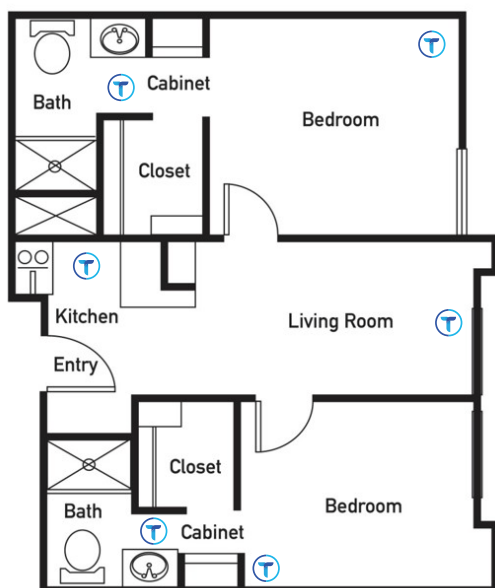

Theora Sense enhances peace of mind for caregivers of loved ones aging in place

Unobtrusive, long lasting sensors

- ✓ HVAC system health monitoring
- ✓ Incontinence detection
- ✓ Activity, to help identify fall risk
- ✓ Location

Provide caregivers with insight into behaviors that may require intervention

- ✓ Activity (getting up in the night)
- ✓ Wandering
- ✓ Sleep monitoring
- ✓ Inactivity

Theora Sense is simple to install, and provides wide areas of coverage throughout the home. Historical data is provided in an easily understandable format, enabling caregivers to monitor routine behaviors, and pinpoint unusual patterns to proactively identify changes in environment or activity that may require intervention. Real-time and historical wellness data at your fingertips gives you the power to help prevent an unwanted and costly hospital stay by knowing when your loved one might need help.

Theora Link™ Software App for Caregivers

The familiar caregiver interface used with all Theora Care solutions. An easy to use software app that allows care partners to stay connected with their care recipients, when and where they might need you. Caregiver text notifications provide loved ones status, with alerts for when the environment or activity of a loved one is outside of normal, pre-set limits.

Start with one, then experience the peace of mind provided by all Theora Care solutions, which utilize the familiar and intuitive Theora Link smartphone software app to provide real-time communication, status notifications and alerts about your loved one's well being.

Theora Care. As if you were there.

The Theora Care suite of IoT devices and SaaS applications provide caregivers with better day-to-day information, communications, and location services for their loved ones. Our solutions deliver situational awareness not only for the caregiver, but also for the professionals, medical and care management that are involved in the loved one's care plan. Theora Care is located in Austin, TX. Our customers range from family caregivers, to industry leaders such as Baylor, Scott and White and Texas A&M.
