

Theora Link Smartphone App for Caregivers

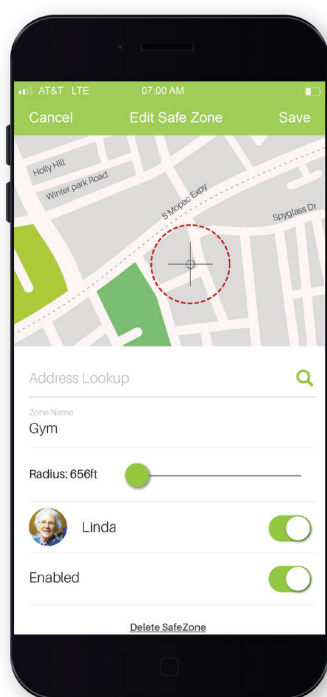

Simple-to-use app delivers situational awareness to enhance caregiver peace of mind and independence for loved ones

Care partners are using the Theora Link Smartphone App to provide better care with more information about how, when, and where their loved ones might need attention. The Theora Link Smartphone App, coupled with Theora Care monitoring devices, provides a complete solution to know your loved one's status, location, and be able to communicate with them.

Theora Link[™]

The smartphone app that enables care partners to be in touch with their loved ones to know how, when and where a loved one might need assistance, or just to check in.

Theora Link

One of Theora Link's key features is a GPS locator service called Safe Zones. With a simple drag-and-drop on your smartphone, caregivers create virtual safety nets to help protect loved ones. If a loved one should stray outside of a Safe Zone, caregivers are notified, before family members can get far away. Quik Connect[™], the two-way audio feature, enables caregivers to communicate, with no button pushing required by loved ones. Loved ones will hear their caregiver's familiar, reassuring voice directly through the wearable. Should a loved one become confused, or lost, caregivers can still reach them via the two-way audio to reassure them that help is on the way.

Key features & benefits

- ✓ Enhances caregivers' peace of mind, while keeping loved ones active and independent.
- ✓ GPS locator informs you of your loved one's whereabouts.
- ✓ Safe Zone feature lets you set up specific monitoring zones, and notifies caregivers if a loved one has left the safe area. You can pre-set Safe Zones for frequently used locations such as home, a park, even the grocery store, or easily add safe zones on the fly via an easy drag and drop interface. Multiple Safe Zones are supported.
- ✓ Scalable continuum of care – start with one Theora Care product, and add additional solutions if or when needed.
- ✓ Everything you need to get started is included with Theora Care solutions, even the Theora Connect wearable cellular service is pre-activated by the Theora Care Support Team. Our solutions are simple to set-up, and our team is here for questions, should need us. Theora Link works with Apple[®] smartphone iOS[®] 8 or above, and Samsung[®] Android[®] OS 4.4 or above.
- ✓ Easily download the smartphone app via Google Play[™] and Apple[®] App Store.

Theora Link

**Affordable, intuitive app used with
all Theora Care solutions**

All Theora Care products can help support persons aging in place, in residential care or in hospital environments with the following conditions:

- ✓ Alzheimer's and Dementia
- ✓ Autism
- ✓ Parkinson's
- ✓ Down Syndrome
- ✓ Stroke
- ✓ Post Traumatic Stress Disorder (PTSD)
- ✓ Any other reasons caregivers may have for needing help by keeping an extra set of eyes on their loved ones.

Start with one, then experience the peace of mind provided by all Theora Care solutions, which utilize the familiar and intuitive Theora Link user interface to provide communication, status notifications, and alerts about your loved one's well-being.
