Theora® Care

Award winning caregiving technology

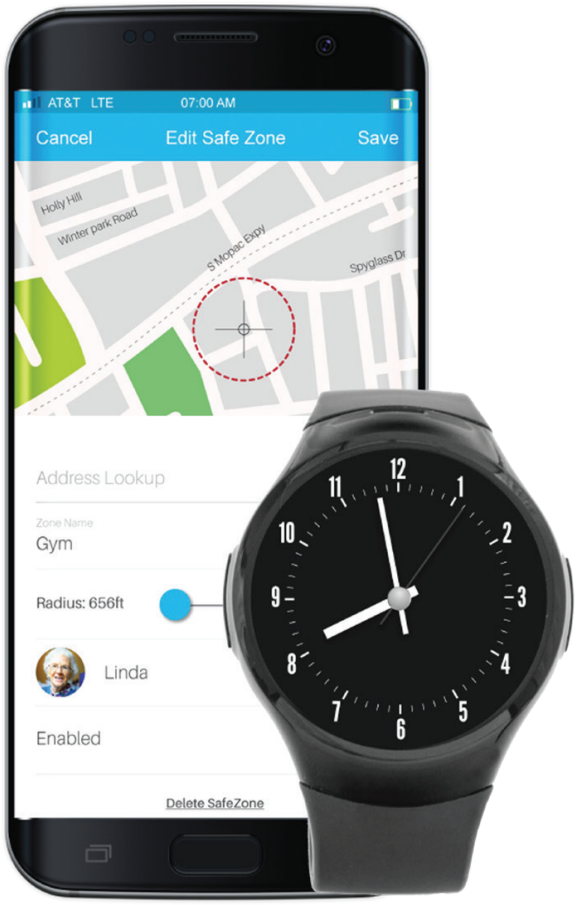

DATASHEET

Theora Connect Wearable and Theora Link Smartphone App

Stay Connected with Easy to Use Remote Monitoring Technology

The Theora Connect™ wearable for older adults, along with the powerful Theora Link™ smartphone app for families and caregivers, provides a complete solution for wandering, remote monitoring and keeping in touch. This innovative solution supports active independence with reassurance for older adults, and those requiring additional care due to Alzheimer's, dementia and memory loss, while providing enhanced peace of mind for busy family caregivers.

The **Theora Connect** wearable is a lightweight, stylish wristwatch that people enjoy wearing. It's flexible design offers a selectable analog or digital watch face. An easy to locate SOS button directly calls a trusted family member in case of emergency, family can also initiate an automatic call if they receive an alert, or just to check in. The Theora Connect wearable automatically answers, the wearer is connected and can hear their family members reassuring voice.

Safe Zones: Be Notified of Wandering Before it Escalates

In the event of a wandering incident, using the Safe Zone feature Theora Connect sends a notification to the Theora Link application on the primary family member's smart phone. They can easily track the wearer using the built-in GPS, and call the wearer to help them or reassure them help is on the way.

Quik Connect™ 2-Way Audio

Theora Link's 2-way audio feature enables family members to directly communicate with older loved ones through a voice interface on the Theora Connect wearable. No button pushing is required by the wearer to hear their reassuring voice.

"While shopping, one of my greatest fears came true and I became separated from my husband, Bob. I did not realize that he had left the store and was wandering outside in the parking lot. Fortunately, I was able to use the Quik Connect feature to get the attention of a Good Samaritan who was near Bob. The Good Samaritan heard me trying to talk to Bob and was able to help bring him safely back into the store and by my side…where he's been for over 50 years!"

- Enables older loved ones to remain active, independent and in their home of choice longer
- Stylish, lightweight wristwatch. Non-stigmatizing like some elderly trackers or bracelets
- Proven solution for Alzheimer's, dementia and Autism, other conditions
- More peace of mind for busy family members and caregivers
- Automatic text notifications if loved one should depart from their usual locations
- Quickly find and communicate with a loved one who's wandered, before it becomes dangerous
- Theora Link is a free app for family and trusted caregivers to keep everyone informed with current information
- Investment protection with latest 4G/LTE cellular
- Optional accessories include lockable clasp, instant wandering alert and audio door alarm
