

Keeping Caregivers Connected

DATASHEET

Innovating Home Care with Proven Technology Solutions

Affordable, easy to use Theora Care solutions bring better care to your clients, attract and retain your employees.

Our rapidly aging population is driving high demand for home care. To meet the rising need, forward thinking home care businesses are looking for innovative ways to build and retain the best staff while enhancing their service offerings with continuity and quality of care. **We can help deliver technology that improves client and staff satisfaction and retention.**

Introducing Theora Care Remote Monitoring Solutions

The Theora® family of products provides a complete line of scalable, affordable and simple to use point-of-care solutions that support increased client engagement and caregiver retention. The difference is in the insights provided by Theora Care's analytics and remote monitoring technology. Our wearables and sensors provide data and analytics to help you run your business better. You can proactively identify opportunities for better outcomes for your care clients, and empower your caregivers to deliver them. The result is better customer care, higher employee satisfaction, and more efficient business processes with less risk.

It's as if you were there.

One unified view of the care recipient, people, processes and equipment with continuous insight to deliver better care, at lower cost with happier families and employees.

Keeping caregivers connected is the ability to use real-time and historical data from wearable or installed sensors with analytics to understand how, when, and where a care recipient is doing, to provide better care and know when intervention may be needed that could prevent a costly incident.

Smoother business operations you can use real-time and historical data from wearable or installed sensors with analytics to better understand how your business is doing, and when and where improvements can be and that will help you increase efficiency, productivity, compliance, employee retention.

Caregiving Technology Solutions that Move Your Business from Reactive to Proactive

Theora Care Family of Products

Theora Link™

A smart phone app that connects all Theora Care devices

Theora Connect™

A smart wearable to monitor health, wellness, location and activity

Theora Sense™

Unobtrusive, highly precise remote monitoring sensors

Theora ESP™

Dashboard to manage all your clients' location and status

Know more at a glance about your care recipient's falls, activity, mobility and state of their wearable.

Benefits to your care team and care clients

Better information at the point-of-care

Caregivers have a complete picture of the client with relevant information regardless of whether it's their first day with the client, or a long term engagement.

Data Accuracy for Confidence in Care

Automation of data collection for care plans using IoT devices reduces manual data entry and errors - freeing your caregivers to focus on care.

Remote Monitoring

Unobtrusively keep track of where your client is and how they are doing. Unlike stigmatizing PERS, Theora Connect can accurately detect falls, provide SOS and instant communications and activity/mobility information.

Staff and client retention and loyalty

Innovative technology is an investment in your care team and clients. Providing technology that makes your care team's job more rewarding is an investment in your staff. Families will appreciate the better care, added insights around their loved one, and be more comfortable with care decisions.

Benefits to your business

Longer engagements with your clients

With Theora Care, your clients can safely stay longer in their home of choice.

Key differentiator

Technology frees caregivers to focus on care, empowered with better information around their care recipients. Useful technology builds skill sets.

Increase revenue

With better information, care providers can confidently recommend additional services when warranted. Families will appreciate your data-driven recommendations.

Decrease liability

Caregiving can be challenging. With Theora Care, businesses have additional information around their clients, caregivers and business operations that can mitigate risk.

Affordable

Theora Care solutions are affordable in off-the-shelf or integrated formats. Theora Care is easily installed by families or caregivers.

Improve business operations

Cloud analytics helps you better understand how your business is doing, and where improvements can be made. You can increase efficiency, productivity, compliance, employee retention and deliver better customer service. The result? Improved cash flow and revenue.
