

DATASHEET

# Theora Connect™ Wearable and Theora Link Pro™ Smartphone App

The stylish cellular wearable for active older adults that now has Smart Fall Detection!

**Theora Link™ Smartphone App**  
Caregiver app with safe zones and wandering alerts

**Theora Connect™ wearable**  
with selectable watch faces

The Theora Connect™ wearable for older adults, along with the powerful Theora Link Pro™ smartphone app for families and caregivers, provides a complete solution for communication, remotely monitoring activity, and receiving wandering and falling alerts.

The Theora Connect wearable is a lightweight, stylish wristwatch that people enjoy wearing. It's flexible design offers selectable analog, digital, and date/time watch faces. An easy to locate SOS button directly calls a trusted family member in case of emergency, and family can initiate calls quickly if they receive an alert, or just to chat.

## Weather App: Know what's happening outside for better planning

Going for a walk, or just want to know if you need a sweater? Our weather app provides an easy to read and graphical display of current weather conditions. Simply tap on the weather icon on the Theora Connect watch face menu to see current temperature, air quality, weather conditions for your current city location. No need for an additional cell phone to check the weather or make and receive calls.

## Safe Zones: Be Notified of Wandering Before it Escalates

In the event of a wandering incident, the Safe Zone feature of the Theora Link application notifies the primary family member on their smartphone. They can easily track the wearer using the built-in GPS, and call the wearer to help and reassure them help is on the way. Safe Zones

## Smart Fall Detection

Know if your loved one has fallen even if they can't press the SOS button. Our industry-leading Smart Fall Detection is powered by AI / Neural Networking to more accurately know when your loved one has fallen, and notify you so you can help them. Our Smart Fall Detection looks at what happened before and after the fall to determine if it really was a fall, minimizing false positives.

## Quik Connect™ Auto-Answering Audio on the Theora Connect Wearable

Theora Connect's touchless audio feature enables family members to communicate with loved ones through a speaker on the Theora Connect wearable. No button pushing is required by the wearer to hear your reassuring voice. At home, in assisted living or memory care – across town or across country – families are staying connected!

*Theora® customers use our stylish cellular wearable to stay active and independent, connect with family, and get help if a fall happens. Instantly check the weather, count your steps, and only receive calls from trusted contacts. Even includes an SOS button just in case. Enjoy more peace of mind by staying connected and communicating - it's the only device you need to carry!*

## Smart fall detection now available!

- ✔ Theora Link Pro is a free app for family and trusted contacts to keep everyone informed
- ✔ Care teams can receive notifications, location (current and history), set up the Theora Connect, create Safe Zones, use the auto-answer on the watch to reach a loved one, invite others to the care team, know battery and cell signal strength, steps and if a fall has happened
- ✔ Enables older loved ones to remain active, independent and in their home of choice longer
- ✔ Automatically connect with loved ones in assisted living or care homes, without care staff assistance
- ✔ Proven solution for Alzheimer's, dementia, Autism, and other conditions
- ✔ More peace of mind for busy family members and caregivers
- ✔ Automatic text notifications if loved one should depart from their usual locations, if battery is low and if a fall has happened
- ✔ Quickly find and communicate with a loved one who's wandered, before it becomes dangerous
- ✔ Built-in pedometer measures daily steps for active adults
- ✔ Programmable lockdown mode for the watch face prevents wearers with cognitive issues from inadvertently changing the settings
- ✔ SOS button to call primary caregiver for help
- ✔ Optional accessories include lockable clasp, audio door alarm
